

Environmental policy

We make the following commitments:

- a) We recognise that our greatest influence will be with food. We will promote healthy and sustainable practices in all aspects of our food sourcing, production and service whilst taking account of our diverse, international and wide customer base.
- b) Endeavour to use cleaning products, methods and equipment that have minimal environmental impact.
- c) We will use non paper based systems for advertising, marketing and communication whenever possible.
- d) We will take environmental impact and energy saving features into consideration when purchasing new equipment. We will regularly service equipment to ensure it operates efficiently and safely. We will dispose of obsolete equipment in an environmentally friendly way encouraging reuse where practical to do so.
- e) We will train our staff in good practices and encourage an ethos for proactive engagement.
- f) We will apply a just-in-time policy for storage and stockholding thus reducing space and energy requirements whilst encouraging 'fresh-to-the-plate' food quality.
- g) We will use local suppliers whenever feasible to reduce our carbon footprint. Where non local suppliers are used we will keep deliveries as infrequently as practicable and encourage suppliers to use modern fuel efficient vehicles.
- h) We will ensure that our waste is disposed of in an environmentally friendly and sustainable way and recycle our plastic food containers.
- i) We monitor and encourage the efficient use of energy, water and other resources.
- j) Our goal is to achieve continuous environmental improvement within our business.
- k) We will continue to review our Environmental Policy regularly and update where necessary.
- l) We will actively monitor our commitment and progress throughout our business.

- ▶ **We recognise the significant impact which catering operations can have on the environment**
- ▶ **We are committed to an ongoing day to day policy which will minimise our environmental impact**
- ▶ **We implement our environmental policy throughout our business and make our staff fully aware of this**
- ▶ **We will promote sound environmental management policies and practices throughout our business**
- ▶ **As a provider of catering we undertake to ensure that our activities not only comply with environmental regulations but exceed them wherever possible in every aspect of our operations**
- ▶ **We also recognise that providing safe, varied, interesting, sustainable choices is essential for wellbeing**
- ▶ **Our efforts will therefore be on going so that new systems, products and innovations are explored and implemented where feasible**
- ▶ **We cook with a high efficiency frying range with minimum wastage**
- ▶ **We believe in ethical sourcing and the provenance of products offered is of utmost importance**
